

to be provided with the caring and disciplined structure which will help direct and support them academically, emotionally, physically and morally. By the effective and guided use of their time, learners are able to learn through routines and hence how to develop the self-discipline which is needed to become confident and self-supporting adults. The Boarding Housemaster oversees each house, helped by resident tutors, and they are particularly concerned to ensure that new learners settle in easily and develop tolerance, flexibility and a mutual supportiveness; learners often form their most lasting friendships in their boarding house.

### Learning Environment

❖ Healthy competition among students ❖ Group learning process ❖ Homely atmosphere ❖ Holistic Development of students – Physical, Intellectual, Emotional, Social and Spiritual.

### Teaching & Learning

❖ In-depth regular classroom coaching by experienced and skilled professors and teachers for IIT, JEE (Engg.& Med.) and JCECE along with 10+2 Board Examinations ❖ Exclusive and extensive testing on regular basis throughout the year ❖ Laboratory based learning for better understanding of science subjects ❖ Round the clock doubt clearing on different subjects by skilled Resident Teachers ❖ Study Materials and model answers are prepared by the experts ❖ Regular Motivation sessions by eminent personalities ❖ Individual care and counselling ❖ Regular feedback from the students to improve need based teaching and learning

### Academic Features

❖ The Institute keeps qualified, experienced and skilled teachers ❖ To provide individual care, teacher-student ratio of 1:15 is maintained in scientifically designed class rooms ❖ Emphasis on Laboratory based learning both in science & computer subjects ❖ Focus on Co-curricular activities and life skills ❖ Well equipped Library with Reading Hall.

### The Curriculum

The institute will prepare students for IIT, JEE examinations through intensive quality coaching along with 10+2 (Science) Board Examination under Central Board of Secondary Education (CBSE). English is the medium of instruction. The institute is committed to develop creativity and innovativeness within students.

Welcome To  
Al-Ameen Markaz 30

AssalamuAlaikum,  
Al-Ameen Markaz 30 has completed one year of its journey. So far, it is sailing quite well Alhumdulillah.  
As you know, we had started a residential educational institution named Al-Ameen Mission about 29 years ago in a remote village of Howrah district in West Bengal. Since then, we had been working tirelessly among the backward community and consistently trying to uplift them from the darkness of backwardness. We had introduced *Al-Ameen Markaz 30* a year ago in Ranchi, Jharkhand and it has already created a buzz in the town. After working in West Bengal for 28 years, we have spread our wings outside the state. We are happy to select Ranchi to be our next destination. We are confident that this initiative will certainly benefit the community. Inshallah, with your doa and blessings we will continue to flourish in the future.

M. Nurul Islam  
General Secretary, Al-Ameen Mission Trust

Message from the President

Assalamu Alaikum! The initiative taken by Al-Ameen Mission Trust and Markaz-e-Adab-o-Science to establish Al-Ameen Markaz 30 has completed one year, Alhumdulillah. We are happy to note that by the grace of Almighty, we are doing quite well. Historically, the Muslim community is backward in terms of education in India. A nation cannot prosper if every section of its people is not developed uniformly. So it is obvious that the Muslim community must prosper now. Education is the only way by which one can prosper. For this, we took the initiative to start a residential coaching institute for IIT-JEE aspirants. This is a humble effort from our side to serve the community. Inshallah, we hope that this endeavour will go a long way and the state of Jharkhand will be benefitted in the long run.

Prof. Ahmed Sajjad  
President, Al-Ameen Markaz 30

Vision

To achieve quality and excellence in the field of education and stand by the disadvantaged section of the society following the principles of Fairness, Equity, Equality and Transparency.

Mission

- ❖ To impart Modern and Scientific Education with Islamic values.
- ❖ To empower children to be creative, independent and responsible.
- ❖ To stand by the poor and orphan students providing them with equal facilities and special care to flourish.

Al-Ameen : The Best for Every Student

Our approach to motivating and getting the best out of our learners is based on the belief that praise and encouragement lead to confidence. This confidence is then realised in academic success and the proliferation of a happy, caring community where good behavior, excellent manners, enthusiasm and love for learning are the norms.

We aim to give all our students the educational tools to succeed in whatever field they choose to further their path of learning. Through our encouragement of achievement and, equally important, independence of thought as well as action, learners will develop a sense of personal responsibility and readiness to meet the demands in this rapidly changing world.

Independent Thinkers

The responsibility of Al-Ameen Markaz 30, is to prepare learners for adulthood through the highest standards in academic studies and the various activities that comprise learners' life in a boarding environment. In achieving this mission, the realisation of every learner's academic potential is always

central, whilst acknowledging that the building of responsibility, consideration for others and self-esteem, so vital in adulthood, comes equally from participatory activities.

Education at Al-Ameen is a continual process of discovering, learning and maturing, as aspirants supported by their facilitators, progress through the various key stages of their hostel life in a healthy competitive environment. Our greatest challenge as an institute is to develop in our learners the capacity for independent thought and action

and then combining this with creativity, rational and responsible decision-making.

Campus

Located in the fringe area of Ranchi, the "City of Waterfalls", Al-Ameen Markaz 30 nestles in the foot of Chhotanagpur hills. The hilly topography as well as its dense tropical forests makes the Institution an ideal destination for study.

Boarding

Good boarding relies on a subtle mixture of discipline, acceptance of others, care and forgiveness. Here learners learn to tolerate and trust, to respect diversity and to support each other through challenging situations. Boarding allows young learners
